

# Banff International Workshop in Jazz and Creative Music

Celebrate a decade of director Dave Douglas

## About the workshop

Under the leadership of Dave Douglas and his hand-picked group of leading jazz faculty, this unique program leaves the rigid academic environment behind, encouraging creativity and facilitating leaps of artistic innovation. Participants benefit from daily master classes, small ensemble

rehearsals, and common sessions with some of the world's most inspiring jazz musicians. Club and concert performances, recording sessions, and opportunities to workshop new compositions allow artists to further develop original music in a collaborative and supportive environment.
